**APPLICATION AND AGREEMENT TO HAVE WATER SERVICE FURNISHED
IN THE NAME OF THE TENANT OF RENTAL PROPERTY**

It is the policy of the Ohio County Water District that, where there have been unpaid water charges due to default by a tenant, water service to subsequent tenants will only be established if the property owner agrees to be responsible for any unpaid water charges. When the account is in the name of the property owner, unpaid charges may be collected by means of a lien recorded against the property to which the water was provided.

The property owner may elect to have the account established in the name of the tenant as primary account holder and the property owner as co-account holder, so that the tenant will receive the water bills and be primarily responsible for payment of charges for water service to that rental property. The property owner will remain ultimately responsible for payment of those charges and in the event of nonpayment by both the tenant and property owner, a lien may be placed on the property in order to secure the amount due.

In order to have an account for a rental property established with the tenant as the primary account holder, Ohio County Water District requires that the property owner sign the following application acknowledging that the property owner will be a co-account holder and responsible for any unpaid charges for water service. Applicants for water service who are not the owner of the property will not be provided service until the property owner has completed, signed and returned this form.
